Notes from Susan: These neighborhoods are in transition from white working class to more diverse, younger, gentrification. LSH wants to do major study and rebranding to appeal to younger senior population (current members are in their 80s). They offer a wide range of services (food pantry, caregiver support, care referrals, and are the only provider in these neighborhoods. PCA is primary funder, LSH will contribute to this initiative from fund-raising. Appears to be in the “study” phase for much-needed rebranding and change.
