Mission, primary work, founding year: PSRC is the go to resource where aging adults and their families find support, guidance, educational and social programs to help navigate life transitions and continue to be active, healthy and engaged in the community. 1974

Organization annual budget: \$970,715 (2020)

Notes from Susan: I see need for older adult LGBTQI group, but it seems that the younger senior group is an idea of staff without significant demand, and I am skeptical that this will draw people in as much as exciting specific programs.

High surplus this year likely reflects capital campaign.

Both Abigail and I have worked here.
