

Priorities for 2024:

- Support board committees including work on succession planning.
- Present workshop on Aging & Spirituality at FGC, use this opportunity to increase awareness of FFA
- Attend ASA (American Society on Aging) Conference
- Continue conversations and site visits with grantee partners; build relationships
- Continue to identify the core information needed for FFA grantmaking (what do we really need to know); seek opportunities to simplify processes for benefit of grantee partners and FFA.
- Continue building understanding of aging and grantmaking; educate and guide board.
- Build a culture of “learning and unlearning.” Watch for ways that privilege, power, unconscious bias may affect FFA grantmaking in ways contrary to the mission, vision and goals.
