

Neil

Neil is a 74-year-old Navy veteran and a resident of Toms River. In his spare time, he volunteers at an animal shelter and likes to spend time outdoors. When reaching out to our Critical Home Repair program, Neil explained how his roof, shower, and floors were impacting his health and safety.

Our team was able to completely replace Neil's roof and damaged flooring, perform a tub-to-shower conversion, and rebuild his outdoor stairs, allowing him to age-in-place in his home.

Thank you to the Federal Home Loan Bank of New York for funding this home repair!

“

My roof was leaking because it was not constructed well. I had tarps and sandbags on it. My tub was also cracked and the water would constantly leak. Habitat did a wonderful job and the roof is amazing. Everyone I met has been so kind and I love working at the ReStore. It's such a great place to be. God bless you all.
